# **FLUID/PARTICLE SEPARATION JOURNAL**

---

## **COVERING**

**Research and development, graduate student contributions, elementary and advanced tutorials, chapter activities, and educational affairs, news from industry and government, and employment opportunities.**

**a Publication of**

**THE AMERICAN FILTRATION SOCIETY**

**devoted to**

**All aspects of fluid/particle separation**

**Volume 2, Number 1, March, 1989**

# TABLE OF CONTENTS

<b>Corporate Members</b> .....	<b>M1</b>
<b>Houston Meeting</b> .....	<b>M4</b>
<b>Fluid Mechanics in Chemical Engineering Education: The Costly Omission of Multiphase Flow</b> James N. Tilton, E.I duPont de Nemours & Co.....	<b>M 7</b>
<b>Particulate Science and Technology: an Underdeveloped Area</b> John Keith Beddow, University of Iowa .....	<b>M 9</b>
<b>General Topics</b> .....	<b>M10</b>
<b>Declining Rate Filtration</b> John L Cleasby, Iowa State University .....	<b>1</b>
<b>A Comparison Of Filtration Performance Using Particle Counting And Pore Sizing Techniques</b> H. Batchu, J.G. Harfield, and R.A. Wenman, Coulter Electronics .....	<b>5</b>
<b>Point Of Use Reverse Osmosis Fundamental Rejection I</b> J. Melford Newman and Kenneth F. Jackson, Membrane Products, Inc.....	<b>11</b>
<b>The Viscous Permeability Of A Mat Of Randomly Arrayed Fibers As A Function Of Fiber Diameter And Packing Density</b> Peter R. Johnston, Ametek, Inc. ....	<b>15</b>
<b>Tyvek For Microfiltration Media</b> Hyun S. Lim and Ernest Mayer, E.I. DuPont .....	<b>17</b>
<b>Indoor Air Pollution</b> A.J. Palermo, Air Filters, Inc. ....	<b>22</b>
<b>Breakthrough Curve Models For Colloid Deposition In Porous Media</b> Avner Adin, The Hebrew University of Jerusalem and Raj Rajagopalan, University of Houston .....	<b>25</b>
<b>Out Of The Past</b> .....	<b>31</b>
<b>The Porous Media Under The Photographic Eye And Prism Of A Theorist</b> Professor E. Claude Thirriot, University of Toulouse, Toulouse, France .....	<b>32</b>
<b>Determination Of The Laws Of Flow Of Water Through Sand: Appendix to <i>Histoire des Fontaines Publiques de Dijon</i></b> Henri Darcy, Translated by J.R. Crump, University of Houston .....	<b>33</b>
<b>Graduate Student Contributions</b>	
<b>Porosity And Permeability As A Function Of Fraction Of Filter Aid</b> Bennett O. Okoh, The PQ Corporation.....	<b>37</b>
<b>Tutorials</b> .....	<b>44</b>
<b>Sludge Dewatering by Centrifugation</b> H.S. Muralidhara, Battelle Columbus Division.....	<b>45</b>

## PURPOSE OF THE JOURNAL

Fluid-particle separation is a part of many fields including mining, environmental, pulp and paper, paints and coatings, food and beverages, coal, chemicals, automotive, drilling and production of petroleum, ceramics, biotechnology, air conditioning, clean rooms, electroplating, metal working, laundries, swimming pools, and pharmaceutical manufacture. Particles are encountered in ionic, macromolecular, micron, and millimeter sizes. They occur in many forms including suspensions, colloids, emulsions, foams, dusts, flocs, microorganisms, drops, pigments, aerosols, and pollen. Fluid-particle separation operations include cake filters, deep beds, clarifiers, thickeners, centrifuges, hydrocyclones, gas cyclones, membranes, reverse osmosis, electro dialysis, coalescers, scrubbers, electrostatic precipitators, expression, flotation, and heavy media separation. The *Fluid/Particle Separation Journal* provides an outlet for practical and theoretical contributions to fluid-particle separation and allied areas. It seeks to unite theoreticians and practitioners from many different fields by emphasizing the common principles which apply to fluid-particle separations wherever they may be encountered.

The *Journal* intends to satisfy the multifaceted needs of theoreticians and practitioners, salesmen and managers, manufacturers and users of equipments, and federal and local government agencies. It faces the challenge of charting a path leading to recognition of fluid-particle separation and processing and allied areas as a recognized branch of engineering and science.

The general structure will initially assume the following form:

1. Information concerning the Society
2. News and exchange with other societies
3. Discussion of current important issues
4. Research contributions
5. Practical contributions
6. Papers from graduate students
7. Tutorials
8. Educational issues
9. Comments from members
10. Local section activities
11. Advertisements

**Subscriptions:** The *F/PSJ* is published quarterly. The annual subscription is \$35.00. Single copies are \$10.00.
