

## **HOLLOW FIBER ULTRAFILTRATION —A POWERFUL WATER TREATMENT TOOL**

Peter Cartwright<sup>1</sup>, Larry Zinser<sup>2</sup>

<sup>1</sup>Cartwright Consulting, <sup>2</sup>Master Water Conditioning Corp.

This session is intended to describe the distinguishing characteristics of hollow fiber ultrafiltration technology. The session will include specification of the set of targeted contaminants, the basics of manufacturing, and the application guidelines as derived from 13 years of OEM field experience.
